

TECHNICAL DATASHEET

ND "Clic" System-Profile

ND "Clic" System-Wall Profile

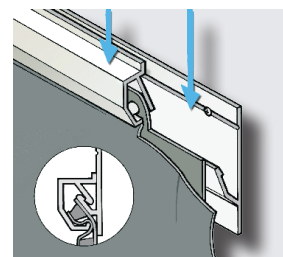

ND "Clic" System-Front profile

A two-part, patented profile that is manufactured from a durable weather-resistant metal to secure the ND 120 Drainage System to the sub-structure. The ND "Clic" Sub-Structure System-Profile is a component of the ND "Clic" Sub-Structure Drainage and Protecting System.

Properties

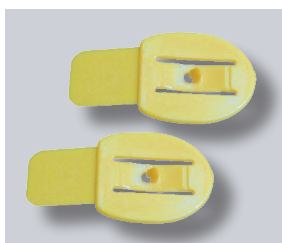

- Material: aluminium
- Dimensions wall profile (L x W): approx. 2,400 mm x 42 mm
- Dimensions front profile (L x W): approx. 1,200 mm x 25 mm
- Perforations wall profile: 7 pieces per approx. 2,400 mm

ND "Clic" System-Profile

Product	Dimensions (L x W)	Packaging
ND "Clic" System-Profile	ca. 2,400 mm x 42 mm	ca. 24 m per package, 10 pieces

ND "Pix" Geotextile Fastener

ND "Pix" Geotextile Fastener

Plastic element to secure the geotextile overlaps of the ND 120 Drainage System. The ND "Pix" Geotextile Fastener is a component of the ND "Clic" Sub-Structure Drainage and Protecting System.

Properties

- Material: polyamide (PA)
- Packaging: 20 pieces per bag

Product	Packaging
ND "Pix" Geotextile Fastener	20 pieces per bag
